

VA Puget Sound Health Care System Chiropractic Integrated Clinical Practice Residency

Last Updated: November 10, 2021

Applications for Academic Year 2021-2022 at American Lake (Tacoma, WA) will be accepted from January 6 – January 31, 2022

The VA Puget Sound program is funded by the VA Office of Academic Affiliations and is affiliated with University of Western States. Additional details are provided in the announcement at the [VA Chiropractic Residency Program website](#).

Mission

The purpose of a VA Puget Sound Healthcare System (VAPSHCS) Chiropractic Integrated Clinical Practice Residency is to prepare chiropractic residents for clinical practice in hospitals or other medical settings, and/or academia, through hospital-based clinical training, interprofessional education, and scholarly activities.

The VAPSHCS chiropractic residency program follows curricular competencies, outcomes, and assessment processes consistent with other VA chiropractic resident sites, and as directed with requirements of The Council of Chiropractic Education (CCE) accreditation. Our focus is on integrated clinical practice, with training emphasizing the provision of chiropractic care in an integrated health care system, collaborating with Center of Excellence for Primary Care, specialty care, and other medical and associated health providers and trainees.

Resident Goals/Objectives

i. Postgraduate Clinical Experience

Residents will acquire postgraduate clinic experience in hospital-based chiropractic care by providing musculoskeletal care, most commonly spinal, to patients in a collaborative environment. They will gain experience in managing a range of complex/multimorbidity cases. Clinic duties will begin with direct observation and will gradually increase in responsibility as competencies are achieved and the attendings are comfortable with expanded resident autonomy. Residents will gain in experience in managing a range of complex/multimorbidity cases.

ii. Interprofessional Education

Residents will complete clinical rotations in primary care, physical medicine and rehabilitation, additional relevant medical or surgical specialties, and other associated health disciplines. The resident's role in assisting care during interdisciplinary rotations will vary depending on the needs of each individual clinic and as appropriate per hospital privileges.

The Puget Sound program may include rotations through Primary Care, Emergency Medicine, Geriatrics, Internal Medicine, Neurology, Neurosurgery, Orthopedics, Pain Clinic, Rehabilitation, Rheumatology, Radiology, Spinal Cord Injury.

iii. Scholarly Activities

Residents will complete scholarly assignments, online and in-person didactic courses, and collaborate with other chiropractic residents to complete group assignments. They will attend scholarly presentations among available hospital and academic affiliate offerings. Residents may engage in research activities, will present scholarly material, and will participate in clinical workshops at VA Puget Sound and in collaboration with our academic partner. They may have opportunities to participate in research publication and professional conferences.

Program Faculty

Edward Bednarz, DC

Dr. Bednarz has a BA from Vermont College and his DC from University of Western States. He joined the VA Puget Sound medical staff in 2005 establishing chiropractic services. He previously served as a member of the VA Chiropractic Field Advisory Committee and is currently a mentor for newly hired VA Doctors of Chiropractic in the Pacific Region. Dr. Bednarz participated as a therapist in an NIH funded research study through a collaboration between VAPSHCS and the University of Washington and has published on interprofessional education.

Clinton J. Daniels, DC, MS (Director)

Dr. Daniels received a BS from Purdue University and his DC and MS degrees from Logan University. In 2014 Dr. Daniels was selected to the inaugural class of VA chiropractic residents and in 2015 joined the VA Puget Sound medical staff. In 2016 he was appointed to the scientific panel for Clinical Compass and to the board in 2020. Dr. Daniels is on the steering committee for the VA Cancer Rehabilitation SCAN-ECHO, and is the Research Coordinator for the VA Chiropractic Field Advisory Committee. He serves on the editorial board for several chiropractic journals and has authored numerous scientific publications on the topics of chiropractic integration into veteran and military facilities, postsurgical spine pain, nonpharmacological treatment of shoulder conditions, and chiropractic best practices.

Morgan R. Price, DC

Dr. Price received a Bachelors of Applied Health Sciences from Bowling Green State University and her DC degree from National University of Health Sciences. Dr. Price was the inaugural graduate of VA Puget Sound chiropractic resident program and joined the medical staff in Seattle in 2021 following program completion. Dr. Price is professionally involved with the American Chiropractic Association and Forward Thinking Chiropractic Alliance. She has authored published case reports and contributed to projects presented at national and international conferences. Her research interest includes clinical decision making for complex cases presenting in the chiropractic setting.

Christopher B. Roecker, DC, MS

Dr. Roecker received a BS from Excelsior College and his DC and MS degrees from Palmer College of Chiropractic, Main Campus. He has maintained Diplomate training from the American College of Lifestyle Medicine (2020), American Chiropractic Board of Sports Physicians (2015), and American Board of Neuromusculoskeletal Medicine (2012). In 2019, Dr. Roecker joined the medical staff of Grand Island VA Medical Center and transferred to VA Puget Sound Health Care System in 2021. Prior to joining VA, Dr. Roecker was an Associate Professor at Palmer College of Chiropractic from

2012-2019 where he received awards for teaching innovation and was named Faculty of the Year multiple times. He serves on the editorial board for multiple chiropractic journals and has authored numerous scientific publications on the topics of evidence-based approach to orthopedic physical examination, chiropractic education, and therapeutic neuroscience of pain.

Location

Training takes place at VAPSHS American Lake (9600 Veterans Drive, American Lake, WA) and Seattle (1600 South Columbian Way, Seattle WA) campuses. VAPSHCS has academic affiliations with the University of Washington, and over 150 other health professional schools including University of Western States. Through these academic affiliations VAPSHCS host more than 2,100 trainees annually including more than 800 physician residents and 275 associated health trainees.

Clinical Facilities

The American Lake chiropractic clinic is composed of three exam/treatment rooms furnished with state-of-the-art exam/treatment tables, work stations, and other essential equipment.

Program Duration

Full-time (40+ hours/week) for 12 months, from July 1 through June 30 of the following year. The schedule consists of 10 hours a day for 4 days a week. Additional weekly time may be needed for scholarly or other training activities.

Number of Positions

One resident position each year

Compensations

The resident stipend is \$40,646 per year. The resident receives paid Federal holidays, and accrues vacation and sick leave. The resident is also eligible for life and health insurance. The resident is protected from personal liability while providing professional services at a VA health care facility under the Federal Employees Liability Reform and Tort Compensation Act, 28 U.S.C. 2679 (b)-(d).

Certificate of Completion

Upon satisfactory completion of program requirements, the graduate will receive an official Certificate of Residency, and records will be maintained at the VAPSHCS and the VHA Chiropractic National Program Office.

Eligibility Requirements

Applicants must hold or be scheduled to receive a DC degree from a CCE-accredited school prior to the start of the residency program. Applicants must be eligible for, or hold a current, full, active and unrestricted chiropractic license in a State, Territory or Commonwealth of the US, or in the District of Columbia. Applicants must meet all VA employment requirements including US citizenship, and Selective Service registration when applicable.

Application Process

Selection is through a competitive process considering factors such as academic background, relevant experience, personal statement, letters of recommendation, and teleconference interviews. A call for applications is issued each year in early January. Applications are only accepted during the open call.

Accreditation

The VAPSHCS chiropractic residency program is seeking accreditation by The Council on Chiropractic Education, 10105 E. Via Lina, Suite 103-3642, Scottsdale, AZ, 85258, Phone: (480) 443-8877, Website: www.cce-usa.org
