Audiology Services are found in over 500 sites of care in the VA for more information: www.rehab.va.gov/audiology

1370 Audiologists
410 Hearing Health Technicians
176 Graduate Trainees

WHO ARE AUDIOLOGISTS?

Audiologists are healthcare professionals trained to identify, diagnose, treat, and monitor disorders of the auditory and vestibular systems. Most audiologists are trained with a doctoral degree (e.g., AuD, PhD). All VA audiologists are required to maintain a state license.

AUDIOLGY SERVICES

VA audiologists provide a range of clinical services to our Nation’s Veterans and Service members. Services include:
- Diagnostic Hearing Evaluations
- Hearing Aid Fittings
- Aural Rehabilitation
- Vestibular Assessment
- Vestibular Rehabilitation
- Tinnitus Assessment
- Tinnitus Rehabilitation
- Ototoxic Monitoring
- Virtual Telehealth Services

BEST TECHNOLOGY ANYWHERE

Through national contracting with the Commodities and Services Acquisition Service and Denver Logistic Center, the VA is able to provide state of the art technology to Veterans. Devices include:
- Hearing Aids
- FM Systems
- Cochlear Implants
- Bone-anchored Hearing Aids
- Tinnitus Maskers/Sound Generators
- Assistive/Alerting Devices

WHO IS ELIGIBLE FOR CARE?

All Veterans enrolled in VA’s health care system are eligible for comprehensive audiology diagnostic evaluations. Specific eligibility rules apply to hearing aid services.

SITES OF CARE

Audiology Services (face-to-face or via telehealth) are found in over 500 sites of care in the VA health care system including medical centers, outpatient clinics and community based outpatient clinics.
